

# CLA SOFTWARE & MOBILE APP

It has been 2,000 years since Jesus commissioned His Church to take the gospel into all the world. Today, there are still nearly 2,500 ethnic groups waiting for His Good News, of which 80% live where traditional church planting access is restricted, limited or closed. The greatest obstacle confronting the Church in reaching them is building culturally deep relationships and becoming proficient communicators of the Word of God in their mother tongue.

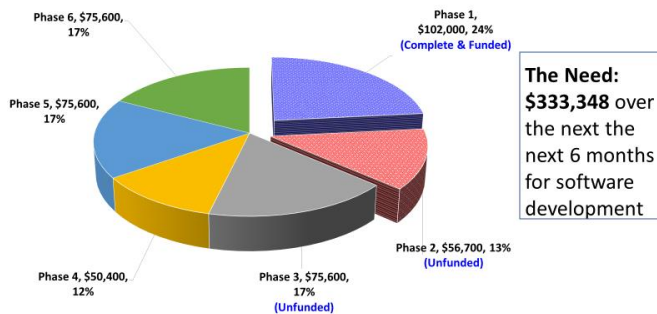

God is raising up the national Church in closed countries with a desire to reach their own ethnic groups with the gospel, but they lack Culture Language Acquisition (CLA) and cross-cultural church planting training. A comprehensive training program has been launched in Asia that will assist the local church to train, support and send out their own church planters. This is where the CLA App will change everything for those church planters!

The app is an intuitive and interactive cross-platform mobile app that helps learners to plan and schedule the right activities; collect and save data; organize, schedule and facilitate review; and filter data to analyze worldview before presenting the gospel. There is not another app in the world like it, and it will save learners between two and four years in reaching CLA proficiency. And through the app, consultants can provide CLA coaching from a distance for learners in closed countries. There are currently nearly 3,000 missionaries, missionary candidates and national church planters in training who will immediately benefit from this software and app when it is completed.

## Software Development - \$417,000

We are near the end of Phase 3 of the six-phase project. The total funds needed to complete the project is \$333,348. God is providing, but we need financial partners to bring it to completion by February 2021. The critical need right now is \$64,260 to finish Phase 3 and \$50,400 to cover Phase 4, enabling us to continue development without delay.

A thriving, beautiful representation of the Body of Christ is what we envision for every people group in the world. It is incredibly exciting when we see God completely transform an ethnic group and raise up His Church among them. Consider being a part of this project and invest in seeing God build His Church among the millions who have never had the opportunity to hear His wonderful Good News!
